At One With NATURE

AN IMPRESSIVE NEW BUILD ON A NATURE RESERVE

BOSUN 011 310 1176

ABOVE: Merging 25 years' worth of experience in the industry with innovation, Bosun takes pride in offering modern, uniquely styled concrete paving to complement every home. To complement this home's modern design aesthetic, Bosun supplied a combination of their contemporary Linneo pavers and their permeable Grass Block paving for the driveway.

“Enjoying the beautiful location and surrounding nature was an essential factor for these owners.”

This new build has been carefully thought out to maximise comfortable living for this family. They left no stone unturned when it came to considering what they required from their new home. The property is made up of four bedrooms, all en suite and each with an outdoor shower. The main bathroom has two. There is also a study, an open-plan kitchen, a dining and sitting room, a guest toilet with a full skylight, an entertainment room comprising a built-in braai and folding glass doors, a big covered patio with large built-in braai and frameless sliding glass doors, an outside boma area, a

swimming pool, staff quarters and three garages.

The décor and design were as important, and this family opted for something simple. “We like simplistic, minimalist décor with a striking effect,” says the owner. A neutral colour palette was chosen, adding elements of texture in the form of face brick feature walls and stone cladding, which were cleverly incorporated in certain areas. “Neutral colours express our lifestyle,” the owner adds.

Enjoying the beautiful location and surrounding nature was an essential factor for these owners. “We wanted to build a home that’s open, light and airy and that >

BELOW: Absolute Doors manufactures, supplies and installs garage doors, and undertook to install an AbsoLift automation door with battery backup in this home. The brief received was for a modern insulated garage door. The AbsoSteel garage door, which boasts a modern sandpaper finish, available in white and charcoal, was provided. Garage doors that are installed correctly by professionals can be an excellent complement to any home or office building in South Africa. Absolute Doors currently boasts the largest range of garage doors for sale in South Africa.

ITALTILE MENLYN 012 348 8700

“All four bedrooms are en suite and each with an outdoor shower.”

LEFT: Italtile Menlyn supplied the tiles, sanitaryware and taps in this stylish home. The owner requested a modern industrial look that still had a natural feel bringing in the different earth elements, thus giving a sophisticated look. The main floor tile, Torre Titanium, has a light grey hue that goes with the natural architectural style accomplished with this amazing screed-look porcelain tile. This then allowed each tile to differ marginally in its combination of tones, resulting in an authentic screed look.

complements nature by blending into the surrounding area,” says the owner. “We also wanted to create a peaceful, functional, modern yet simplistic space.”

When asked what stood out about their property, the owners love their outdoor showers, a welcome treat on a hot African summer's day. “We also adore the views from each room in the house. Staying in a game reserve area where game graze freely around us is incredible,” the owner says. 🏡
